

# *Grid Dot-2-dot*

ANSWER

-----

# GRID DOT-2-DOT INSTRUCTIONS

**QUICK GUIDE:**

1. Solve each equation.
2. Circle each answer in the grid.
3. Draw a line that connects each circled number, in equation order.

The answer revealed is "Z."

$13 + 50 = 63$

$43 + 16 = 59$

$50 + 7 = 57$

$22 + 10 = 32$

$4 + 3 = 7$

$5 + 0 = 5$

$1 + 0 = 1$

1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31	32	33	34	35
36	37	38	39	40	41	42
43	44	45	46	47	48	49
50	51	52	53	54	55	56
57	58	59	60	61	62	63

## Details:

1. Solve each equation first. The answer will always match something you can find in the number grid.
2. Circle the matches.
3. Now draw lines connecting the circled numbers, **in the order that the numbers appear on the left**.
4. Once all of the lines are drawn, they should form the shape of a single letter.
5. Lay the four pages of the puzzle side by side, in page number order, to make one word.
